SPALDING

NEW YOR

Spalding's success has spanned more than 135 years, during which time it has evolved and changed in order to keep up with, if not be ahead of, the times. In addition to its sports range it has developed a line of smart accessories and leather goods aimed at a different target group - not just sports enthusiasts - and still fully embraces Spalding's philosophy. Its founder's spirit has remained intact no matter the product: from bags to stationery, from watches to wallets, finely crafted leather, an unmistakeable attention to detail, a taste of vintage America during the golden years, beautifully redesigned and updated.
